FW: CYBER SECURITY SOLUTION MEETING

CYBER SECURITY SOLUTION MEETING

CYBER Terrorism **How it can Impact your Business?**

Computel Systems with help from SYMANTEC has developed a unique & comprehensive solution for virus & malware security protection (Training in Arabic). This is the best solution so far as you will discover by visiting our web site. www.computelsys.com

I will be in Khobar area in mid January. I am currently presenting this solution to some major companies in the region who were impacted. They have selected this to be the best available solution so far. Please contact us as soon as possible to schedule a free consultation meeting. We are only taking limited appointments due to time constraint.

The risk is too great and there is a good chance that you will feel the impact in the region. **There is no other company with a better or more effective solution.**

Thank-you,

D. Jain
President,

Computel Systems, Inc.
